

M.S. IN GLOBAL MEDIA AND CULTURES FRENCH CONCENTRATION

The 12-month M.S. in Global Media and Cultures offers targeted bilingual preparation for careers in media, international business, and global leadership. Our program provides experiential training in media studies, cross-cultural communication, and advanced competence in a high-impact language and region. Students build a bilingual portfolio through internships, media production, research, and leadership opportunities.

French Program

The French program offers unique research strengths in culture and society, media, literature, and applied linguistics. It has an interdisciplinary orientation with faculty strengths in French and Francophone studies post-1800, contemporary media, sustainable development, literature, and film. Students can achieve professional-level cross-cultural competence and build their portfolio through hands-on study and internship experiences in France and Senegal.

Opportunities Abroad

Language for Business and Technology:
France: Paris, Nice Senegal: Dakar
